Circular No. 130
(Replaces Circular No. 115)
replaced by Circular No 140

NEW EXPORTERS PAY-ROLL TAX REBATE SCHEME

This circular has been issued to provide information regarding the continued operation of the rebate scheme for the 1995-96 financial year. It replaces Circular No. 115 which was issued on 1 June, 1994. Operation of the scheme after 1995-96 will be subject to annual review.

The scheme provides that employers may claim a rebate, in 1995-96, of 50% of pay-roll tax payable on the wages of additional South Australian employees engaged after 1 July, 1994 in generating new value-added export earnings. Rebate application forms will be issued on a six monthly basis.

Employers will be eligible if additional export sales were or will be achieved after 1 July, 1994 provided that they are attributable to company growth, the establishment of new ventures or the relocation of operations from another State.

Individual employers who relocate significant operations to South Australia or who undertake a major expansion of existing South Australian operations may, upon approval by the Government, qualify for this concession for a guaranteed period.

Eligibility criteria for 1995-96 are as follows:-

- 1 Employers who have increased South Australian pay-roll tax payable and increased South Australian export earnings from value-added goods and services in comparison to the six months to June 1994 are eligible. Employers may be eligible for both the New Exports and Exporters Pay-roll Tax Rebate Schemes.
- 2 Value added goods are those which have been manufactured, produced or processed in their final form in South Australia. "Processed" does not include grading, packing or sorting. Processed minerals, petroleum products and unprocessed primary produce are also excluded.

- 3 South Australian export earnings mean the \$A FOB (Free On Board) sale value of value added goods to a purchaser outside Australia and/or the South Australian component of the \$A consideration received in Australia for services supplied outside of Australia.

To be eligible the employer's name or that of the employer's agent must appear on the Bill of Lading for the goods concerned. Sales to a purchaser outside Australia who subsequently exports the goods from Australia may be eligible. The date of sale will be deemed to be the date shown on the Bill of Lading, or for services, the date on which payment was received in Australia.

- 4 Services provided by employees outside of Australia are eligible only where the employer can establish that South Australian employees made a significant contribution to the services supplied.
- 5 The scheme applies only to the private sector.
- 6 Employers currently treated as a group for pay-roll tax purposes will be treated as a group for the purposes of this scheme. Only one application may be made by the Designated Group Employer on behalf of all members of that group of employers.
- 7 To be eligible for the rebate, employers must be up-to-date with their pay-roll tax obligations and must have paid the pay-roll tax for the rebate period.
- 8 Employers seeking a rebate must apply on the approved application form which will be sent to employers immediately before the close of each eligible six month period.

CALCULATION OF REBATE

- 1 The rebate for each six month period shall be calculated as follows:-

$$R = \frac{(V2 - V1)}{(S2 - S1)} \times (P2 - P1) \times 50\%$$

where R = The rebate

V1= \$A South Australian export earnings (per item 3 above) in the six months to 30 June 1994 indexed for the Adelaide CPI

V2 = \$A South Australian export earnings (per item 3 above) in the rebate period

S1 = \$A Total South Australian earnings in the six months to 30 June 1994 indexed for the Adelaide CPI

S2 = \$A Total South Australian earnings in the rebate period

P1 = Pay-roll tax payable for the rebate for the six months to 30 June 1994 after deducting any rebates from other Pay-roll Tax Rebate Schemes and indexed for the Adelaide CPI

P2 = Pay-roll tax payable for the rebate period after deducting any rebates from other Pay-roll Tax Rebate Schemes

Except that:-

If $(V2-V1)$ or $(P2-P1)$ is less than or equal to zero, no rebate is payable.

If $(S2-S1)$ is less than or equal to zero, the rebate will be calculated as though $(S2-S1) = 1$.

If $(V2-V1)/(S2-S1)$ is greater than 1, the rebate will be calculated as though $(V2-V1)/(S2-S1) = 1$.

2 “\$A Total South Australian earnings” means the employer’s total turnover or sales revenue attributable to South Australian operations.

3 Where services are supplied outside of Australia:-

V1 and V2 = The South Australian components of the consideration received in Australia for services supplied outside of Australia. The components shall bear to the total consideration received (in the relevant period) the same relationship as the proportion of the employer’s South Australian wages bears to the employer’s total Australian wages.

Thus

$$V1 \text{ and } V2 = \frac{\text{Total consideration} \times \text{South Australian Wages}}{\text{Australian Wages}}$$
