

## **SOUTH AUSTRALIA**

### **STATE TAXATION OFFICE**

#### **Pay-roll Tax**

**Circular No.105**

#### **NEW EXPORTS PAY-ROLL TAX REBATE SCHEME**

From 1 July, 1994, a rebate of 50% may be claimed of pay-roll tax payable on the wages of additional employees engaged in generating new value-added export earnings.

Employers will be eligible if the additional export sales are attributable to company growth, the establishment of new ventures or the relocation of operations from another state.

This scheme will operate for the 1994/95 financial year and its continuation thereafter will be subject to annual review.

However, individual employers who relocate significant operations to South Australia or who undertake a major expansion of existing South Australian operations may, upon approval by the Government, qualify for this concession for a guaranteed period.

Eligibility criteria for 1994/95 are as follows:

1. Employers who have increased South Australian Pay-roll tax payable and increased South Australian export earnings from value added goods and services are eligible. Employers may be eligible for both the New Exports and Exporter's Pay-roll Tax Rebate Schemes.
2. Value added goods are those which have been manufactured, produced or processed in their final form in South Australia. "Processed" does not include grading, packing or sorting. Processed minerals, petroleum products and unprocessed primary produce are also excluded.
3. South Australian export earnings mean the \$A FOB (Free On Board) sale value of value added goods to a purchaser outside Australia and/or the South Australian component of the \$A consideration received in Australia for services supplied outside of Australia.

To be eligible the employer's name or that of the employer's agent must appear on the Bill of Lading for the goods concerned. Sales to a purchaser outside Australia who subsequently

exports the goods from Australia may be eligible. The date of sale will be deemed to be the date shown on the Bill of Lading, or for services, the date on which payment was received in Australia.

4. Services provided by employees outside of Australia are eligible only where the employer can establish that South Australian employees made a significant contribution to the services provided.
5. The Scheme applies only to the private sector.
6. Employers currently treated as a group for Pay-roll tax purposes will be treated as a group for the purposes of this scheme. One application must be made by the Designated Group Employer on behalf of all members of the group.
7. To be eligible for the rebate, employers must be up to date with their Pay-roll tax obligations and must have paid the Pay-roll tax for the rebate period.
8. Employers seeking a rebate must apply on the approved application form which will be sent to employers immediately before the close of each eligible six month period.

#### **CALCULATION OF REBATE**

- 1 The rebate for each six month period shall be calculated as follows:-

$$R = \frac{(V2 - V1)}{(S2 - S1)} \times (P2 - P1) \times 50\%$$

- where
- R = The rebate
  - V1 = \$A South Australian export earnings (per item 3 above) in six months to 30/6/94 indexed for the Adelaide CPI.
  - V2 = A South Australian export earnings (per item 3 above) in the rebate period.
  - S1 = \$A Total South Australian export earnings in six months to 30/6/94 indexed for the Adelaide CPI.
  - S2 = \$A Total South Australian earnings in the rebate period.
  - P1 = Pay-roll tax payable for six months to 30/6/94 after deducting any rebate under the Exporters and any other Pay-roll tax rebate scheme and indexed for the Adelaide CPI.
  - P2 = Pay-roll tax payable for the rebate period after deducting any rebate under the Exporters and any other Pay-roll tax rebate scheme.

Except that (S2 - S1) and (V2 - V1) cannot be less than 1.

- 2 ' \$A Total South Australian earnings ' means the employer's total turnover or sales revenue attributable to South Australian operations.
- 3 Where services are supplied outside of Australia:-

V1 and V2 = The South Australian components of the consideration received in Australia for services supplied outside of Australia. The components shall bear to the total consideration received (in the relevant period) the same relationship as the proportion of the employer's South Australian wages bears to the employer's total Australian wages.

thus

$$V1 \text{ and } V2 = \frac{\text{Total consideration} \times \text{South Australian Wages}}{\text{Australian wages}}$$
