

The **Group Wages** screen gives you the option to enter a breakdown of the wages paid by each Group member during the financial year. These details are then used to determine your actual deduction entitlement for the current financial year. If you choose not to enter wages for group members no deduction entitlement will be calculated.

Amounts should be entered in dollar amounts only and should include details of the June monthly wages for your organisation and all group members.

 As the Designated Group Employer (DGE) for the period 01/07/20 to 30/06/20 you can claim a deduction entitlement for your group.

To calculate a deduction entitlement all group members must be declared even if they did not employ in South Australia.

To receive a deduction entitlement select Yes. The SA registered group members are pre-populated below based on information you have previously supplied. Please review and enter any additional SA and Interstate group members. To add a group member click the (+) icon. Then click *Select* to enter the ABN or Name of the group member and click Search. From the search results select the ABN and enter the wages details for each group member record. Repeat this process until all group members' wages have been recorded.

If No is selected no deduction entitlement will be calculated.
